## School DVD Yearbooks

A high quality DVD that can play on your TV or be shown to a large group with a projection system.

We Help Make Your Memories Last Forever.

Organizing photos and videos of your students takes much time, thought and planning. Deciding to produce a DVD is not something that can be done in a few days. Here are some ideas to help you out.

- ◆ Try to keep a balanced number of pictures of every student. Consider collecting 4 or 5 from various times in their life.
- ◆ Include photos of group activities or special outings such as field trips, school plays, sport events, and maybe an old picture from the early grades.
- ◆ Try to include a photo of their teachers and other staff members.
- ◆ A DVD yearbook is a keepsake for the students. Solicit their opinions on music soundtrack and content. Double check the lyrics.
- ◆ Double check spelling of names if you want the names included. (highly recommended!)
- ◆ Establish deadlines that allow ample time to scan photos and DVD production.
- ◆ Allow at least a 3 week timeframe from the photo and song selection to the drop-off date.

A DVD with 500 photos would require approximately 45 to 50 hours of work to put together from start to finish.

Yes, we can include 35 mm slides.

Add video footage on the DVD from sources such as VHS, Hi8, and DV.

Use the DVD Yearbook to enhance the traditional printed version. The DVD yearbook can help offset other expenses. The yearbook can be a special "rite of passage" for this year's graduates, or something for all of the students at your school.

Pricing 1 DVD	Basic Costs	Price Scenario #1	Price Scenario #2
first 60 photos \$90  Additional Photos 75 cents each	Initial setup includes scanning of the first 60 photos; Additional scanning of photos extra	560 photos 60 Minute DVD \$90 Initial setup scan 60 photos	360 photos 40 Minute DVD \$90 Initial setup scan 60 photos
